

TT8

Compare Anywhere;
The TT8 is Miles Ahead Of
The Competition.

The TT8 is an engineering marvel in every sense. TT stands for twenty-two as in twenty-two inches wide. The TT8 treadmill offers a twenty-two inch wide running surface designed to give runners an extra safe and comfortable feel. The extra width truly lets runners run freely without having to think about where they're positioned on the treadmill at all times.

"Sole TT8 is the biggest and most powerful treadmill from Sole this year. It still comes with great quality, numerous features, and long warranties that Sole has been known for."

Treadmill Console

All models have been upgraded with vibrant LCD display consoles. The cleaner sharper design is in addition to the overhaul changes done on all our machines, now boasting better specs and greater value for the customer

Treadmill Features

Cushion Flex Suspension System

A unique design to any type of treadmill on the market, this deck provides our users with a comfortable and quiet workout. In a recent study our cushion flex has proven to reduce impact of up to 40% as compared to running on asphalt.

Easy Assist Folding Design

With safety and quality in mind, SOLE has developed an easy to assist folding design. At the flip of a switch the deck will unfold itself slowly without need for assistance, as well as fold back securely and easily into upright position.

Double Horseshoe Folding Frame

This design was built for hotel needs. The treadmill needed to be as mobile as possible while still providing an efficient workout. Our easy to move design resulted in an all-steel welded frame that is more stable than most non-folding frames.

Convenient Speed & Incline Controls

Built in speed and incline controls in our handrails add ease of use and unparalleled control during your workout.

Sound System with 2 way Cable

The workout just got easier. the sound system allows for anyone with a music device to be able to listen to their music during their workouts.
