

CG800 ELLIPTICAL

The CG800 eGlide Trainer was designed for groups / classes or individuals that like to create their own workout scenario in the commercial environment. It will appeal to both runners and cyclists as a cross training modality that is full weight bearing, without the impact.

The unique Patented Direct Drive System, optimally weighted pedal arms, dual-action handlebars, 2° inverted foot pedals, and stride length combine to create the perfect formula to assure a frictionless stride. This motion creates what we call the "floating" effect. Once your clients reach a certain RPM, they will start to "float" and experience the smoothest possible gait pattern.

CG800 ELLIPTICAL

- Patented Direct Drive System produces a unique workout experience
- Infinite resistance adjustments to satisfy every fitness level
- Telemetric Heart Rate for hands free monitoring
- 30 lb. flywheel generates the optimum amount of inertia
- Battery powered console means there is no need for electricity
- Full Commercial Warranty

4 Individual LCD Windows

Easy-Touch Control Buttons

CG800 CONSOLE FEATURES

The intuitive CG800 console is easy to use and read. Simply set the workout time and get started. The level of effort is manually adjusted by turning the micro-adjustment knob below the console.
