

LCB

Great Workout with Comfort

Looking for affordable Light Commercial equipment, look no further, the Sole Light Commercial LCB upright bike is the perfect piece of exercise equipment. Most customers prefer quality and durability over bells and whistles when purchasing exercise equipment, Sole does both and for a great low price. Rather than spending thousands of dollars for commercial grade equipment, the Sole LCB has set a new standard for quality and affordability.

"The Sole LCB exercise bike combines all of the quality expected from Sole Fitness with a reasonable price."

EXERCISE BIKE CONSOLE

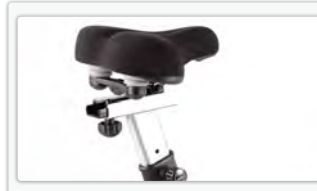

All models have been upgraded with vibrant LCD display consoles. The cleaner sharper design is in addition to the overhaul changes done on all our machines, now boasting better specs and greater value for the customer

EXERCISE BIKE FEATURES

Pedal Design

The ergonomic design of the SOLE Bikes is unique because of our specific pedal design. The 2 degree inward cant on the pedal prevents aches in the knees and feet from occurring by aligning the joints in their correct posture during a workout.

Adjustable Seating

Allows a user to move forward and backward on the seat as well as the back rest. Because all users differ in height it's important to have the freedom of finding that perfect comfort level during a workout.

Display

Easy console viewing prevents workout frustrations. Displaying workout info on a large screen is vital for meeting workout goals. Easy viewing means less distractions and more achievement.

Frame

A strong durable frame is vital for Light Commercial bikes. Heavy Steel tubing along with aluminum shroud makes the SOLE bikes indestructible but light and manageable.
